

Develop Maryland's Future Workforce Through Partnerships with Public Educators

Now seeking host companies for Summer 2024!

The Maryland Chamber Foundation's **Teacher Externship Program** is an immersive four-week summer program that builds bridges between Maryland businesses and educators. Through this program, high school teachers and counselors across Maryland are paired with leading businesses in our state for an experience that provides educators a hands-on look at industries related to the subjects that they teach. These teachers become architects of opportunity, bringing knowledge back to the classroom to help empower the next generation of Maryland's workforce.

Equip educators to inspire and prepare students for careers in your field. Strengthen your talent pipeline and develop a workforce ready to succeed in your industry.

High school educators and career counselors participate in a four-week, on-site experience.

Externs work alongside your staff, learning about your industry, available jobs, and the in-demand skills job seekers need to be successful.

Through educators, students gain an understanding of the many job opportunities that await them at Maryland businesses upon graduation.

Businesses help shape the next generation of job seekers by establishing connections with influential educators who have strong relationships with their students and communities.

Sponsor and host a summer Teacher Externship with a high school educator in 2024
